Statement denouncing Russia and China using Veto power to reject the UN Security Council resolution.

BPPU severely denounces Russia and China for using veto power to reject the UN Security Council resolution upon Burma.

The military regime is rejecting time and again to the national reconciliation process. It is still continuing with its oppressive methods to the people at large, monks and democratic forces by detaining, torturing and killing in a lawless manner; It is also committing crimes by using all forms of torturing methods against the political prisoners, attacking the minorities and doing systematic ethnic cleaning, undergoing business with drugs and using forced labor, These actions are tantamount to disturbing international and regional peace. Hence, the family of nations around the world made effort to put the junta to the UNSC.

Russia and Peoples Republic of China took only to business interest, political and economic profit with Burma: The two countries sell hard ware, give military training, encourage nuclear usage and investment. Because of those reasons Russia and China shelter Burma from UNSC resolutions.

Action of South Africa is deplorable also. Not supporting what the family of nations and international community aspires is also tantamount to making the evil regime prolonged its life. Hence the BPPU vehemently protests and severely denounces the two veto countries, Russia and Peoples Republic of China.
